

An Illinois Tool Works Company

Supply Chain and Process Integrity

Accurate indication.

Reliable results.™

Better Solutions for Monitoring Supply Chain and Process Integrity

Since 1938, Tempil® has been a leader in the development of innovative and accurate temperature indication technology for multiple markets. Our cost-effective solutions can monitor your supply chain, check critical temperatures in the manufacturing process or ensure a products' performance in the field.

At Tempil, we understand the importance of monitoring and verifying climate conditions in certain temperature specific operations. Our supply chain and process integrity solutions—Tempilabel® and Thermax®—are uniquely designed to deliver accurate and reliable readings consistently in a variety of applications and a variety of environments. Featuring an easy-to-use adhesive backing, our products can be affixed to any surface quickly. And, our Tempilabel and Thermax brands are both available in either the multiple temperature range configurations or single temperature designs to meet your specific measurement needs.

Main Features and Benefits

- Accurate, reliable temperature readings within ± 2 percent of the Fahrenheit rating
- Easy-to-use adhesive backing
- One way color range
- Permanent record for inspection and quality control
- Available from 84°F to 554°F (29°C to 290°C)

Tempilabel® Irreversible Temperature Indicating Labels

Fast Application. Accurate Results.

Simply remove the adhesive backing, and press label firmly onto a clean dry surface. When the rated temperature is reached, the dot(s) in the middle will change and remain black indicating that the desired temperature has been reached.

- Accurate to $\pm 2\%$ Fahrenheit rating
- Self-adhesive and one-way color change
- Permanent record for inspection and quality control
- Available 10 per box from 84°F to 554°F (29°C to 290°C)

Applications:

Monitor temperatures attained during shipping and storage:
medical devices, temperature sensitive materials, drugs, biologicals,
film, and disks
